

Budgeting

HOW TO MAKE A BUDGET.

DETERMINE YOUR VALUES.

List out the things that you find important. Whether that is going out to eat, watching movies, spending time with friends, or travel.

RANK YOUR VALUES.

Put your values in order of importance to you. What are the necessities (rent, gas, groceries) and go down from there.

ENTER ALL MONETARY AMOUNTS.

Create a document with your personalized rankings and assign the monetary amount to them.

PUT IT ALL TOGETHER.

After fulfilling those necessary costs you can determine how the rest of your income can be divided among your other values.

DON'T FORGET UNEXPECTED COSTS.

There is always the chance of surprise costs so make sure to leave a miscellaneous category and keep some savings.

STICK TO IT TO YOUR BEST ABILITY.

Use your budget and try to stick to it. This way you always have the funds for what you need and have money set aside for the fun costs.
